

# BULKY WASTE SERVICE

## YOUR ENTITLEMENTS

Council's bookable bulky waste service provides an opportunity to dispose of bulky household items.

Each household in Lake Macquarie that pays a 'Domestic Waste Management Charge' as part of their rates is entitled to receive two bulky waste services in a rolling 12-month period.

The rolling period begins from the time that you last used the service. For example, if you used the service in February and again in October this year, you could request your next service from February next year.

### How much is 2m<sup>3</sup> of waste?

You can estimate the volume of individual items by multiplying their dimensions (length x width x height). For example, a mattress that is 2.03m long, 1.53m wide and 18 centimetres (0.18m) high will have a volume of 0.56 cubic metres (0.56m<sup>3</sup>) - about a quarter of your 2m<sup>3</sup> entitlement.
